## OUTDOOR UNIT

# 18 REASONS TO BUY RG INVERTER AC

## 100% COPPER

RG 100% Copper Air Conditioners not only ensure the strongest cooling but also are extremely durable.

## GOLDEN EVA & CONDENSER

A Golden Eva & Condenser Coil protects the ACs from salty air, rain water and dust. It also helps in improving heat efficiency.

## SMART 4-WAY SWING

Smart 4-way swing feature enables surround cooling through vertical & horizontal movement of louvers to spread cool air uniformly, across the room.

## 10 YEAR WARRANTY ON COMPRESSOR

RG Inverter ACs not only gives fresh & cool air but also bring peace of mind to the customer. They come with 10 Years warranty on the compressor.

## 5 YEAR WARRANTY ON COMPONENT

All RG Air Conditioners come with a 5 Years Component Warranty which not only gives its customer hassle-free repair or replacement against any manufacturing defect and natural breakage / damage of any component of the AC, but also assures high-quality parts.

## INSTALLATION CHECK

Installation Check - is a user-friendly feature in which more than 15 tests / checks on indoor unit & outdoor unit are performed and indoor panel indicates "go" symbol for perfectly OK AC ready for use and gives "ng" symbol in case even a single test / check fails and flags the need of repair.

## ENVIRONMENT-FRIENDLY REFRIGERANT

RG Air Conditioners use ozone friendly R-32 Refrigerant, hence contributing its bit in reducing global warming.

## CLEAN FILTER INDICATION

"Cleaning Filter Indication" is a unique & smart feature in which indoor panel indicates "CL" symbol, which alarms customer to clean indoor unit air filter. It not only helps in better cooling performance but also enhances lifespan of the AC.

## E5 - LOW GAS DETECTION

E5 (Low Gas Detection) - is a user-friendly feature which indicates "E5" symbol on indoor panel in case there is loss of refrigerant in the AC and flags need of repair

## STABILIZER-FREE OPERATION\*

RG Air Conditioners come with stabiliser-free operation which prevents voltage fluctuations and also ensures safety, savings, ease and comfort. (Range 100 V to 300 V), in 5 Star Range

\*Stabiliser is required if voltage fluctuation is below 100 V or above 300 V

## ANTI-VIRAL DUST FILTER

Anti-Viral Dust Filter comes coated with special metal nano particles (silver ions). When micro-organisms like bacteria and virus come in contact, their outer layer gets dissolved, and their DNA/RNA ruptures. layer you get 99% clean & healthy air.

## TURBO COOL

In Turbo Cool mode AC skips the time lag and compressor starts its operations immediately. AC works in turbo / super cool mode for 60 minutes to bring down the temperature fast and exits the mode thereafter.

## COOLS EVEN AT 52 °C

## WIFI READY (OPTIONAL WIFI)

## COVERS UP TO (15.8 M<sup>2</sup> ROOM SIZE)

## HIDDEN LED DISPLAY

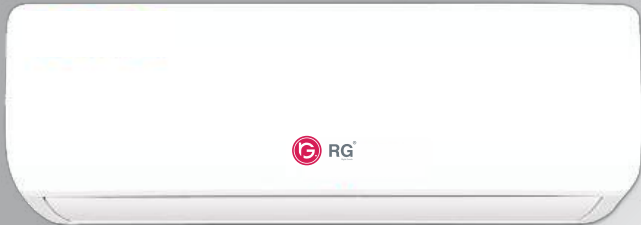

## 3 STAR RATING

## MADE IN INDIA

# FIXED SPEED Air Conditioner
